

PROGRESS REPORT

Renee Lopez, Jade Odom, Sophia Razon

ACCOMPLISHED

- Frontend and backend have been integrated and has become a working website for the following pages:
 - Home page
 - Login
 - Registration
 - Profile
 - Listings
- Chat feature codes have been in progress

FEATURES

- Registration page for users to create a Bartr account
- Login so users can access their account
- Profile so users can see their posts and edit their profile
- Listings so users can discover the posts and listings of other users

PROBLEMS/SOLUTIONS

- Difficulty in learning PHP as a new language with limited time
 - Solved by research and watching videos for assistance
- Problems with XAMPP
 - XAMPP's MySQL not allowing usage to the admin because of “no authority”
 - Solutions are still going underway, Jade and Sophia have been sending code to Renee to test on XAMPP

FUTURE PLANS

- Continue coding for the Chat feature
 - Troubleshoot any problems with the code by sending code to Renee until getting XAMPP to work
- Frontend and backend integration for the Chat feature
- Start on Listing filtering & search feature
- Testing as Bartr progresses
- Implement possible extra features and polish Bartr as a whole
